

Ridge Rack Cup Holder 4.0

by Ridge Runner Gear, LLC

RUN THE RIDGE

Operator's Guide: Because even your drink needs a place to kick back.

Product Name: Ridge Rack Cup Holder **Brand:** Ridge Runner Gear (RRG)

Model Number: RRCH 4.0

Weight: 2.6 oz (Lighter than the excuse for spilling your drink today.)

Dimensions: 7.2" L x 4.8" W x 1.9" H (Tiny enough to pack, big enough to matter.)

Materials: ASA, stainless steel, reflective cord (Built for the kind of "oops" moments you don't admit to.)

Mount Diameter Range: 3/8" (.375") to 1-3/8" (1.375")

What Is This Magical Contraption?

The **Ridge Rack Cup Holder** is your go-anywhere drink dock — part of the **Ridge Runner Gear modular Ridge Rack** system built for cups, phones, lights, and other trail essentials. Mount it to a camp chair, kayak, tent pole, golf cart, ATV, or almost anything else within reach, and keep your drink secure wherever the adventure takes you. The **Universal Mount** uses a rugged adjustable hose clamp system that fits round, square, rectangular, and other oddly shaped mounting surfaces from approximately 0.375" up to 1.375". Lightweight and compact, the **Ridge Rack Cup Holder** packs small and features a bungee retention strap to help keep cups and bottles secure when the terrain gets rough. Fast to mount, easy to move, and built to go wherever you do.

NOTICE: A minute with this manual saves you a busted cup, a bruised ego, and a wet lap. Read up before you sip up.

Why the Ridge Rack Cup Holder is Smarter Than Your Average Cup Holder

Field Manual Spec	Civilian Translation
Angular Spline Positioning System 32 indexed teeth across 360° for optimal beverage attitude adjustment.	Drink Leveling for the Gravity-Impaired Adjust your drink like a precision turret — because no one likes sideways coffee.
Universal Clamping System Built for fast installation, reliable hold, and flexible mounting almost anywhere.	The Clamp That Don't Quit Fast to mount, tough to shake loose, and ready for wherever camp gets set up next.
Retention Bungee Containment System Elastic restraint prevents bottle ejection under kinetic conditions.	Your Cup's Personal Seat Belt Keeps your water bottle from going rogue when the trail gets rough.
Modular Ridge Rack Interface Cross-compatible mount platform for Ridge Rack attachments.	One Mount to Rule Them All Plays nice with the rest of the Ridge Rack family — cups, phones and whatever's next.
Low-Profile Stow Mode Compact geometry for minimal volume during transport.	Now You See It, Now You Don't Packs down small enough to vanish in your gear bag — until it's time to shine.
Adjustable Cup Depth Assembly Configurable base depth accommodates short mugs to tall bottles with optimal retention.	Short Cup, Tall Cup — We Don't Judge Adjusts to snug up everything from a coffee tumbler to a Nalgene without complaining.
Ultra-Light Composite Frame ASA polymer with stainless hardware for strength-to-weight superiority.	Lightweight, Not Light Duty Lighter than your excuses, tougher than the trail.

About Ridge Runner Gear

At Ridge Runner Gear, we believe you shouldn't have to choose between comfort and capability. Our gear is meticulously engineered for those who seek the serenity of the wilderness without sacrificing the sophistication of well-designed essentials. Whether you're setting up a base camp beneath alpine stars or trekking toward your next breathtaking vista,

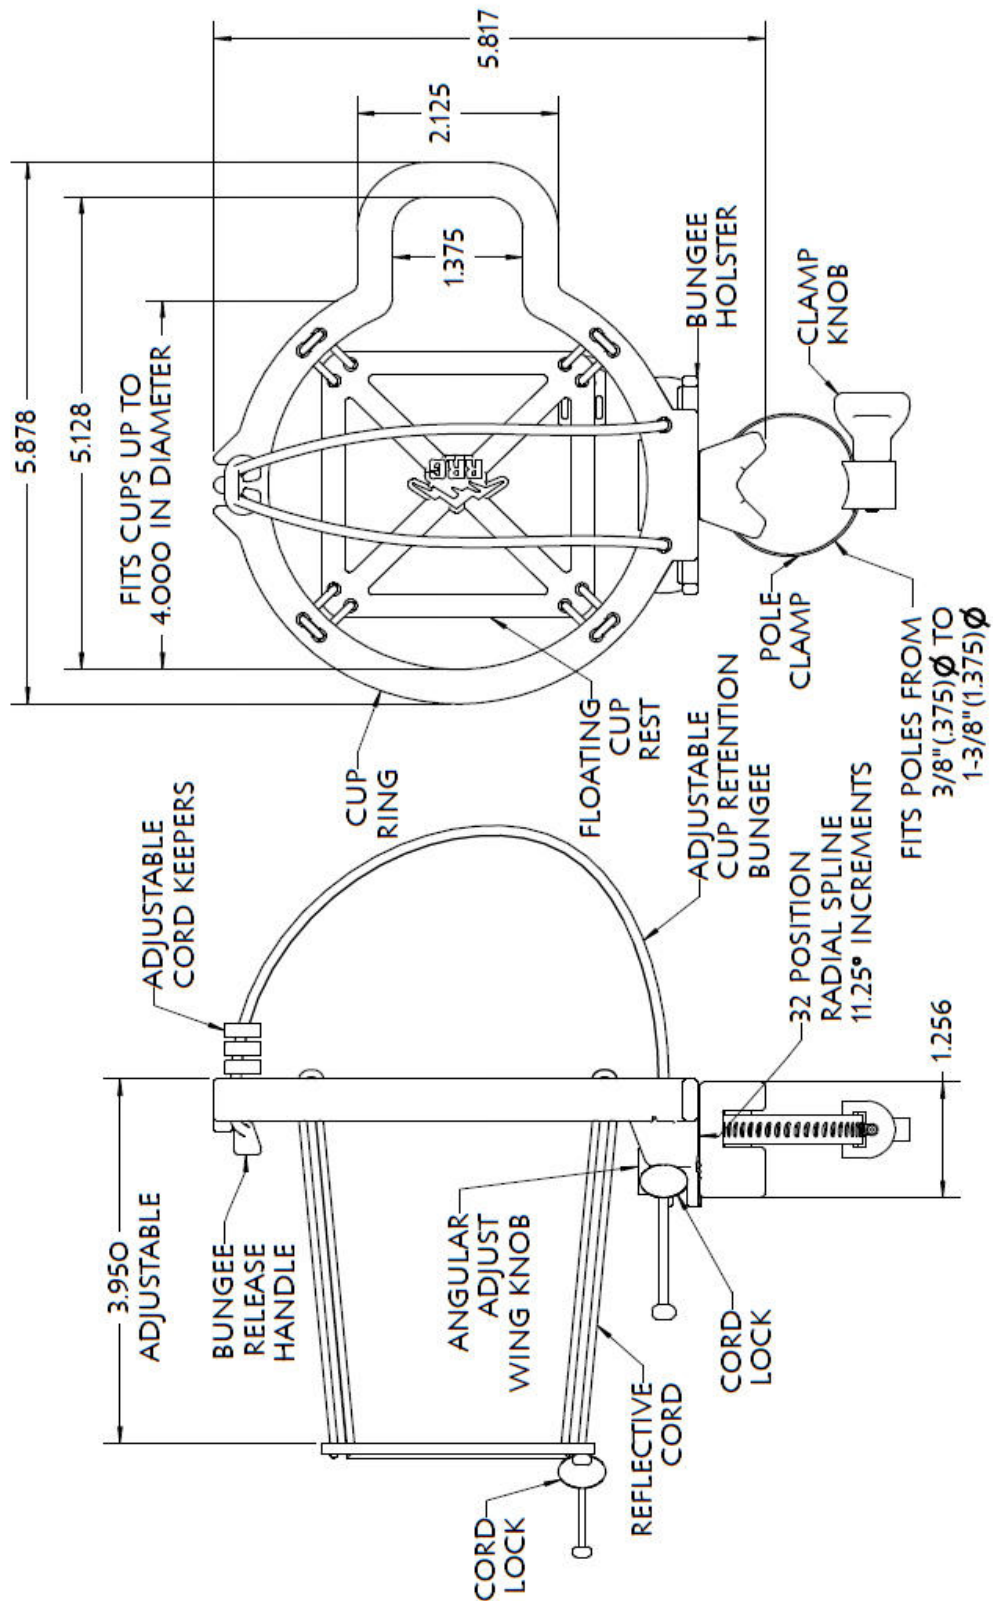

our products deliver premium performance with minimalist weight. Because luxury isn't about excess—it's about excellence, wherever the trail leads.

We are a faith-based company, guided by Christian values in everything we do—from the way we design our gear to how we serve our customers. We believe the outdoors is one of God's greatest gifts, and we're passionate about helping others enjoy it responsibly and respectfully. That's why we practice Leave No Trace principles and strive to be good stewards of the wild places we love.

Proudly American Made, our gear is built with rugged durability and refined utility for the serious adventurer.

Thank you for supporting our dream and being part of the Ridge Runner journey. With your support, we get to build gear we love—for adventures you'll never forget.

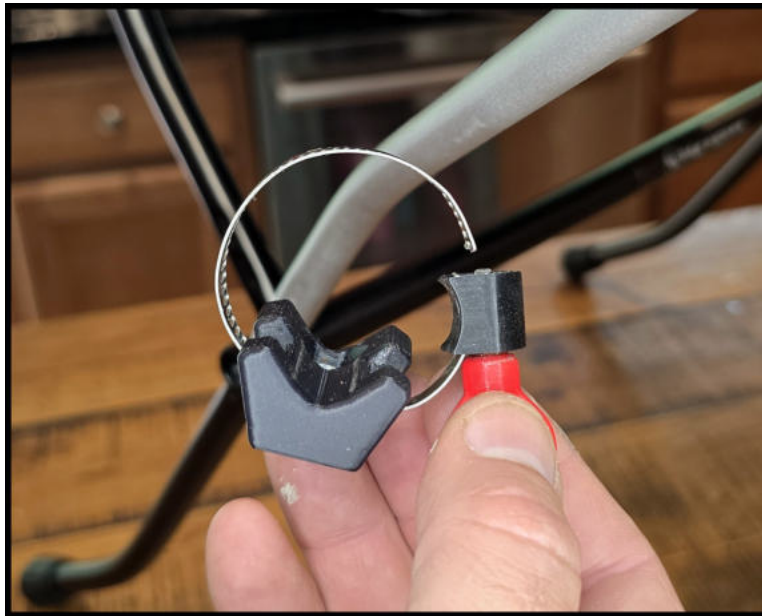

Dimensions/Identification

Assembly & Operation Instructions — Ridge Rack Cup Holder

Follow these steps to deploy your **Ridge Rack Cup Holder** like a pro. (No degree required — just a little common sense and maybe a cold drink for motivation.)

- ◆ **Loosen the Clamp Knob** – Until the strap is free from the clamp adjustment.

- ◆ **Mount It Up** – Position the Ridge Rack Cup Holder on your chair arm support pole or similar mount point.

***Pro tip:** Leave the universal mount in place and only remove the cup ring using the wing knob so the next use is quick and easy.*

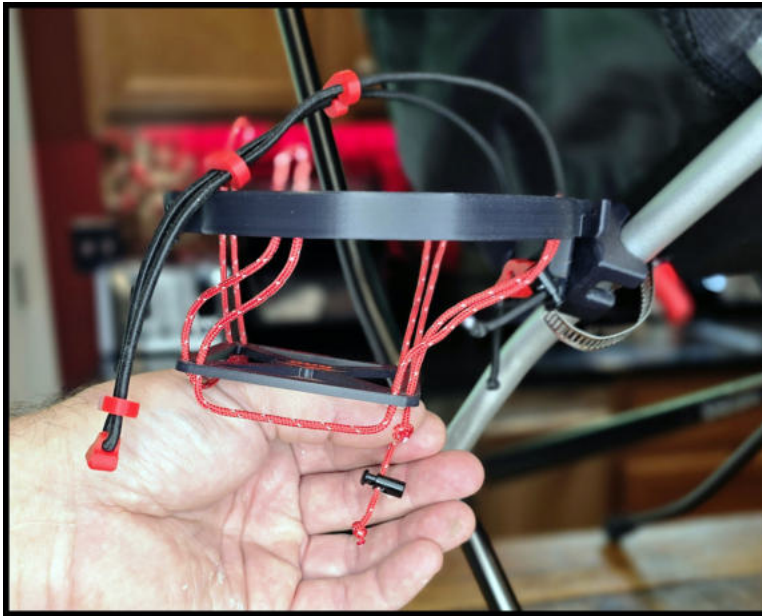

- ◆ **Re-Install the Clamp** – Insert the hose clamp back strap back into place and tighten the knob until snug.

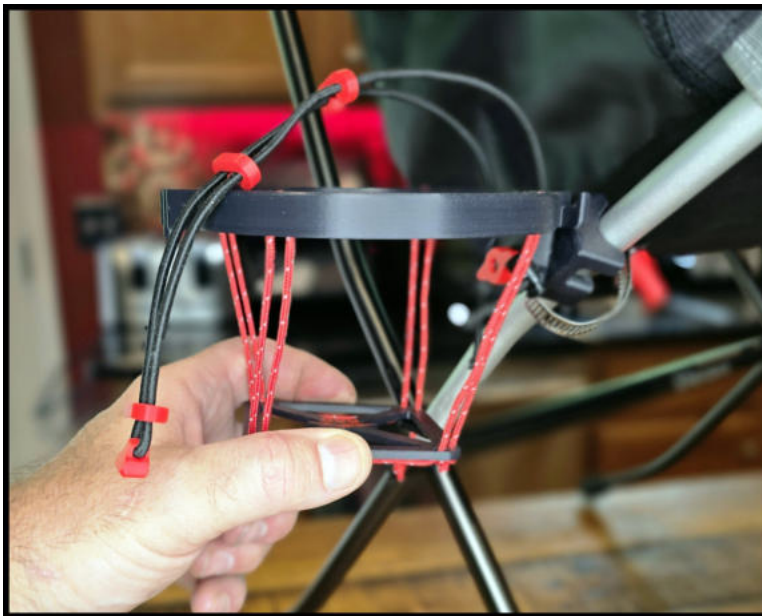

- ◆ **Find Your Angle** – Loosen the angular wing knob and rotate the cup ring to your preferred angle.

- ◆ **Lock It In** – Tighten the angular wing knob to secure your setting.
- ◆ **Adjust the Floating Cup Rest** – Slide it to match the height of your cup or bottle.
- ◆ **Fine-Tune with the Reflective Cord** – Use the spring cord lock to raise or lower the floating cup rest.

- ◆ **Level It Out** – Adjust the reflective cord so the rest sits level.
- ◆ **Set the Lock** – Move the spring cord lock down to rest against the bottom of the floating cup rest.

- ◆ **Secure Your Drink** – Place your cup in the holder and pull the retention bungee over the top, hooking the bungee release onto the cup ring.

- ◆ **Adjust Bungee Tension** – Just like the floating rest, use the cord lock to fine-tune the grip on your cup.

- ◆ **Dial It In** – Slide the cord keeper as needed so the bungee sits where it best holds your cup steady.

Pro Tip: Store the bungee around the base using the guides provided if cup retention is not required.

Mission Complete: Your **Ridge Rack Cup Holder** is now locked, leveled, and ready for active duty.

(Remember: it holds cups, not accountability.)

Ridge Rack Cup Holder Tips & Tricks

- ◆ **Find Your Sweet Spot** – Adjust the angle so your Ridge Rack Cup Holder sits where it feels natural. *(If you're stretchin' like a yoga class to reach it, you're doin' it wrong.)*
- ◆ **Quick-Deploy Tip:** Leave the Universal Mount attached to your chair or camp setup and simply remove the cup ring using the wing knob. Next time out, just slide it back on and tighten — fast setup with no need to remount the clamp.
- ◆ **Clean Mode Option:** Don't need the retention strap? The bungee can be neatly stored in the base using the built-in slots on the cup ring, keeping it out of the way until the trail gets rough again.
- ◆ **Travel Light** – At just 2.6 ounces, toss it in your pack, glove box, or gear bag.
- ◆ **Hands-Free Happiness** – Use the extra freedom for snacks, strummin' a campfire tune, or teachin' the kids to untangle their own line.
- ◆ **Pack Smart** – Rotate the clamp on the cup ring **180°** for a more compact carry when it's time to stow and go. *(Because efficient packing is next to godliness — or at least dryness.)*

Care & Feeding of Your Ridge Rack Cup Holder (Because Even Cup Holders Deserve TLC)

Congratulations, Operator.

You've adopted a fine piece of beverage-retention equipment. Treat it right, and it'll serve faithfully through spills, storms, and campfire chaos. Mistreat it, and... well, it'll probably still outlast your camp chair.

- ◆ **Rinse, don't roast.** A quick rinse with fresh water after muddy or salty adventures keeps it clean. Please resist the urge to "sterilize" it in the campfire.
- ◆ **Soap optional, attitude mandatory.** A dab of mild soap and a soft cloth works great. Avoid harsh chemicals — this isn't your truck's wheel cleaner.
- ◆ **Air dry like a pro.** Shake it off, air it out, and let it bask in the glory of a job well done.
- ◆ **Mind the bungee.** If your Retention Bungee starts looking like a stretched-out noodle, replace it. It's cheaper than your favorite bottle.
- ◆ **Check your clamp.** Before every mission, make sure the universal clamp's snug. Loose clamps cause airborne coffee.
- ◆ **Spline care.** The angular spline loves a little respect — keep dirt out of the teeth for smooth rotation and perfect angle adjustments.

Optional Gear for Overachievers

Yak Rack: Your Kayak's New MVP

The Yak Rack turns your kayak into a fully loaded fishing machine! It mounts your Rocket Reel and Tackle Toter tackle box right into standard T-slots—no drilling, no fuss. With the same trusty trigger mechanism as the Reel Rack, plus a quick-lock sliding arm to secure your tackle box, everything stays put even when the action heats up. The articulated mount adjusts to your setup and pops off quickly when it's time to pack up. Paddle, cast, conquer—yak-style.

Reel Rack: Hands-Free Fishing, Anywhere

Turn any camp chair or pole into your personal fishing throne with the Reel Rack! This ultralight mount securely holds your Rocket Reel in place while you kick back and relax. The positive trigger mechanism gives you lightning-fast release when it's time to fight that fish. Super lightweight, rock-solid, and ridiculously convenient—because your hands deserve a break too.

Rocket Reel: Your Cast-Anywhere Ticket to Dinner

Why pack two handles when one will do it all? Clip in the Rocket Reel kit and watch your Timber Tickler handle transform from a branch-busting saw grip into a fish-wrangling reel holder. One minute you're clearing campfire wood, the next you're pulling dinner out of the creek like a backwoods magician. It still fits the Ridge Runner belt clip system, so you can swap from "Paul Bunyan mode" to "Old Man and the Sea" in seconds flat — no toolbox, no hassle, just pure outdoorsy showmanship.

Tackle Toter: Your Belt-Mounted Bait Boss

Meet the Tackle Toter—the tactical-grade tackle box that does it all. Your Rocket Reel snaps apart and mounts right to the front, making you ready to cast at a moment's notice. It clips onto quick-release belt mounts, fits standard MOLLE webbing like a glove, and connects seamlessly to the Yak Rack or Ridge Rack Cup Holder for kayak or camp chair fishing. Use it while strapped to your belt like a true backcountry commando. Available in five models with up to 12 individually covered compartments—because organized chaos is still chaos.

Timber Tickler: One Handle, Endless Possibilities

Meet the Timber Tickler—the ultralight backpacking saw that moonlights as your Rocket Reel handle. Designed for serious weight savers, it breaks down to blade-length size for compact carry. With five scabbard-style sheath options (6", 9", and 12" blades available), it attaches to the same quick-release belt clip as your other RRG gear. The handle snaps to the sheath and locks tight with a clever wedge system—no wiggle, all wow. One handle + multiple blade sheaths = one smart, versatile saw that saves pack space *and* cash.

Don't just hike it — run the ridge at

Liability Disclaimer

Ridge Runner Gear assumes no responsibility for any injury, damage, or loss resulting from the use or misuse of the **Ridge Rack Cup Holder**. Users are responsible for reading and following all instructions provided in this manual. Outdoor adventures involve inherent risks — including but not limited to gravity, uneven terrain, unpredictable weather, and questionable decision-making. The Ridge Rack Cup Holder holds your drink — *not your dignity, balance, or better judgment*. Always mount responsibly, keep beverages upright, and remember: it won't stop you from spilling, tripping, or blaming the wind. Use the Ridge Rack Cup Holder at your own risk. Hydrate wisely, laugh often, and Run the Ridge.

Limited Warranty

Ridge Runner Gear warrants the Ridge Rack Cup Holder to be free from defects in materials and workmanship under normal use for a period of 90 days from the date of purchase. This warranty applies only to the original purchaser and does not cover damage caused by misuse, abuse, modifications, improper maintenance, or normal wear and tear.

If a defect arises during the warranty period, Ridge Runner Gear will, at its discretion, repair or replace the defective part with proof of purchase. To submit a warranty claim, contact us at: www.rgruntheridge.com

Return Policy

If you're not completely satisfied with your Ridge Rack Cup Holder, you may return it within 30 days of purchase for a full refund or exchange. All returns must include an RMA (Return Merchandise Authorization) number. Items must be returned in unused condition with original packaging.

Return shipping is the responsibility of the customer unless the product arrived damaged or defective. To initiate a return or exchange, contact us at: www.rgruntheridge.com

A Word on 3D Printing

Our gear is proudly 3D printed, which means you may spot layer lines, tiny gaps, or slight weight differences. These are natural traits of the process and do not affect strength or performance. Color tones may also vary from batch to batch. While Ridge Runner Gear is a function over form company, we still care about aesthetics and hold every product to the highest standards possible. In short: it may not look like it came from a spaceship factory, but it'll perform like it belongs on your next adventure.
